

## Success of a New Remedy For Backache, Kidneys, Rheumatism

BELLEVIEW, TENN.—"I was suffering with muscular rheumatism when I came in possession of Dr. Pierce's Anuric Tablets. I commenced on them at once and haven't felt but few symptoms of it since. Anuric is just fine for rheumatism. I am so glad I have a relief, I have suffered so much from it and from neuralgia in my head."—Mrs. LENA KNIGHT, Route 1.

NOTE: Folks in town and adjoining counties are delighted with the results they have obtained by using AN-U-RIC, the newest discovery of Dr. Pierce, who is head of the Invalids' Hotel and Surgical Institute, in Buffalo, N. Y. Those who started the day with a backache, stiff legs, arms and muscles, and an aching head (worn out before the day began because they were in and out of bed half a dozen times at night) are appreciating the perfect rest, comfort, and new strength they obtained from Doctor Pierce's Anuric Tablets, double strength. To prove that this is a certain uric acid solvent and conquers headache, kidney and bladder diseases and rheumatism, if you've never used the Anuric, send ten cents to Dr. Pierce for a large trial package. This will prove to you that Anuric is many times more active than lithia in eliminating uric acid. If you are a sufferer, go to your best druggist and ask for a 60-cent bottle of Anuric.

The poisons in your system can be thrown out by taking Dr. Pierce's Pleasant Pellets, composed of May-apple, aloes, root of jalap, sugar-coated, and sold by all druggists.

### "See?"

There is a little word used in conversation by the careless, the ignorant, that in the way it is used, notes the Milwaukee Journal, is almost the silliest, the most senseless expression in the language. See?

Use of this word at the end of every sentence in conversation serves only to clog the thought. See? Yet the ignorant thrust it in, as if feeling themselves unable to put their ideas into clear English—see?—as if they felt the other fellow were not getting what they wanted to say. See? In ninety cases out of a hundred they merely insult the intelligence of the hearer by their insinuation that he can't understand and follow their simple train of thought. See?

There is no need of mentioning the name of the silly little word. See?

# FORCED TO WORK IN KRUPP PLANT

Deported Men and Prisoners Are Driven Into Slavery by German Authorities.

## MAKE STARTLING DISCLOSURE

Hollander Tells How Deported Belgians and French Prisoners of War Are Compelled to Work in Munitions Factory in Essen.

By W. J. L. KIEHL.  
(Correspondent of the Chicago News.)  
The Hague, Holland.—A Netherlander who until four days ago was employed at Krupp's munition works in Essen, Germany, makes the startling disclosure that some 4,000 Hollanders are working at Essen in the munition and war material factories. Most of these men get there through the machinations of what this "escaped" Hollander calls "Seelenerkäufer"—Cohen & Ossendegner of Rotterdam, who seem to act as agents for supplying Germany with greatly needed labor. Eighty or ninety men a day generally find their way across the border by means of their agents, lured by the prospect of very high wages and good food. What they find in reality and how next to impossible it is made for them to return to their own country is thus told in the Hollander's words:

### No Return Pass Given.

"When this firm of agents secured my services they did not mention war work," he said. "I was given to understand that field labor and trade work was required. Also I was promised that I could return any Saturday to Holland to stay through Sunday. The promised wages were high and food was said to be plentiful. I accepted, my pass was ready in a few moments, but I did not know that the signatures and visas required for my return to Holland had been omitted, as they always are in the passes given by these agents, no doubt because they know perfectly well that after a week in Germany no single Hollander would ever think of returning there after his week-end in Holland."

"Soon after my entrance upon German soil at Elten, where I found several compatriots like myself, we were met by an agent from an 'arbeits bureau,' who secured our services for shellmaking at Krupp's by telling us that food was good there and wages very high. He said that in other branches of labor food was but indifferent and the wages nothing like Krupp's, so we men went to Essen. How good the food was there you can judge of by the fact that my weight

was reduced by 24 pounds while there.

"For breakfast we received two slices of bread without any butter or fat whatever. For dinner potato soup that left us hungry an hour after eating. Then in the evening again two slices of bread like at breakfast. If the Hollander felt too ill or feeble to work the Germans simply took away his bed from under him to make him get up. Oh, yes, there is a doctor, but he always diagnoses the same. 'You can work—if you don't work you won't eat'—'nicht arbeiten—nicht essen,' as we used to put it.

"The laborers are housed by the 500 together in barracks, which are but insufficiently warmed and imperfectly

others are employed as a change from the front, and these men are so afraid of being again sent to the front that they would rather work themselves to death at Krupp's.

### Where Deported Belgians Work.

"Deported Belgians and French prisoners of war also work at Krupp's. Discipline is strictly enforced, and any utterances of anti-German views are at once punished.

"I got the impression that Germany flung itself like mad into munition work as its last card. But raw material is getting scarce, especially copper. In Essen all copper faucets and the like had already been replaced by iron and tin. The general idea in Germany is that the war can be prolonged at the utmost for another half year, so they are employing their last forces for a supreme effort.

"Every evening at Krupp's alarms is made—'Flieger Gemeldet' [airplanes reported]. All lights are then extinguished. This is done so that we

cleaned. Typhus claims many victims. In the barracks where I was housed I found four men lying dead of typhus beside my crib one morning. After a few days of this sort of thing it is not to be wondered at that many Hollanders try in every way to get back to their country, although the visas on their passes are lacking.

"If they are captured they are thrown into prison for a fortnight on bread and water. If they survive they are then drafted back to Krupp's, and set to work again. Production is pushed to the utmost. Numbers of sol-

should not know when flyers really came to bombard the factories. No one is allowed to talk of the damage done by allied bombs, and the newspapers are enjoined to keep silence on these matters. Still, I can say that some damage has been done, although I cannot say how much nor exactly where. On the other hand, stories likely to stimulate the energy of the people are eagerly promulgated, such as those of enormous submarines of dreadnaught type, of guns that can shoot 90 kilometers that are soon to be used against the allied armies."

but it was a long way off, and by the time they drew near darkness and a heavy northerly swell made a landing impossible. They lay to, and during a squall their mast carried away at the heel, but that did not matter much, for it acted as a sea anchor.

At daylight on Tuesday they were sighted by a couple of fishing boats, which towed them into port. The baby lived for some time after being landed. The linen keeper died as he was being lifted from the boat. Two of the crew refused to leave the boat, having gone mad. A trimmer died from gangrene two weeks later.

The chief officer remarked: "I would like to testify to the excellent behavior of the boat's crew throughout our period of eight days' hardship and exposure."

## FIND GUINEA EGGS IN SNAKE

Setting Hen Finishes the Job by Hatching Out Seven Little Guineas.

Moultrie, Ga.—Seven young guineas, all christened "Jonah," because they spent part of their prenatal period in the stomach of a reptile without harm to themselves or the snake, until the latter was unhappily cut open, are the proud possession of L. D. Alford of Colquitt county.

While picking cotton early this fall, Mr. Alford noticed a snake lying in a cotton row in a torpid state with its body considerably swollen. Killing the snake and cutting it open, Alford found seven guinea eggs inside of it, which had recently been stolen from the nest of a setting hen. Placing the eggs under a setting hen in his nearby barn, Mr. Alford was overjoyed a few days later to find seven little guineas hatched out and happy.

## Calomel Users! Listen To Me! I Guarantee Dodson's Liver Tone

Your druggist gives back your money if it doesn't liven your liver and bowels and straighten you up without making you sick.

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with sour bile, crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight.

Here's my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a

spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it cannot silitate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

## RECALLS OLD HANGING DAYS

Interesting Book Contains Chronicles of Executions During Period of Stern and Swift Justice.

"The Hangman's Record" is a unique English work of reference, unknown to the general public. Between its covers are chronicled most of the crimes for which their actors paid penalty at Newgate, Tyburn or the Tower. From 1601 down to 1910, every execution worth noting is noted—sometimes in so quaint a style as to render the reading more humorous than morbid.

Names famous and infamous figure in its index, from Charles I, the Gunpowder Plotters, Captain Kidd and Jack Sheppard, down to Rt. Rev. Dodd, author of "The Beauties of Shakespeare," who, in spite of many influential friends, suffered for forgery at Tyburn in 1777.

One Matthew Clark paid the death penalty for killing his lady love while in the very act of kissing her. Margaret Dickson comes off better. After her execution, while on the road to the burial place, the driver, in quest of refreshment, stopped at a wayside inn. Thereupon Margaret reappeared, sat up in her coffin, and was subsequently able to firmly establish her innocence of the crime of which she was accused.

## RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 1/4 oz. of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Full directions for making and use come in each box of Barbo Compound. It will gradually darken streaked, faded gray hair, and make it soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off. Adv.

### Year of Christ's Birth.

History tells us that for 500 years the Christians had no calendar of their own, but reckoned the years according to the customs of the nations to which they belonged. The Roman Christians used the "Anna Urbis Condita" or year of the founding of Rome, to count from; others counted from the reign of Diocletian, calling it "the Era of the Martyrs"; and still others used the calendar of the Copts of Egypt. In the sixth century Denis the Little, a Greek monk living in Rome, made a calendar counting from the Incarnation, the date of which he fixed at 753 A. U. C. So we commonly say that Rome was founded in 753 B. C. At the beginning of the eighth century, the venerable Bede pointed out that this was an historical blunder. But no general notice was taken of his criticism, and the error has continued to this day. Historic facts have enabled modern scholars to determine, without much possibility of doubt, the exact year of the birth of Jesus, and to place it at what we call 5 B. C.
